Career Summary

Dynamic Product Manager with 7+ years of experience leading cross-functional teams in Agile environments. Proven expertise in driving product vision and strategy, developing technology solutions for data professionals, and enhancing product strategies through user insights. Strong background in data modeling and governance with a focus on delivering innovative solutions that improve operational efficiency and user experience.

Impact Summary

- **Spaulding Ridge:** Led the migration of the Seattle Mariners' data systems to GCP, improving data efficiency by 98.9% and enabling enhanced analytics for non-technical users.
- **Apexon:** Developed and executed the "Gathi Garden Program," reducing new employee turnover by over 30% and facilitating better team collaboration through effective onboarding.
- **NobleHands:** Founded a construction business achieving 200% year-over-year growth by identifying and addressing service gaps between customers and contractors.

Professional Experience

Cloud Data Engineer | Spaulding Ridge | Remote | 07/2022-06/2023

- Drove the design and execution of data migration strategies to GCP, enhancing data quality and accessibility for client operations.
- Spearheaded project to ensure ontology management throughout data integration using dbt contracts rewriting dictionaries for API management.
- Collaborated with design, engineering, and product teams to develop intuitive tools for data visualization and management, supporting connected data practices.
- Presented insights based on product performance metrics to C-Suite, driving strategic decision-making and alignment across organizational goals.

Junior Data Engineer | Apexon | Remote | 12/2020-03/2022

- Actively contributed to the complete data migration for a federal bank, ensuring seamless transition to cloud data warehousing and improved data operations.
- Spearheaded the Gathi Garden Program, mentoring new hires and improving onboarding processes, resulting in significant reductions in employee turnover.
- Engaged in cross-functional collaboration to ensure data governance and effective communication of technical concepts to diverse stakeholders.
