-

Professional Experience

Cloud Data Engineer / Technical Liaison

Spaulding Ridge | Remote | 07/2022–06/2023

- Led technical initiatives for enterprise clients, achieving a 98.9% improvement in data access efficiency through GCP cloud migration.
- Acted as the Subject Matter Expert (SME) during client engagement, translating complex technical deliverables into actionable insights for stakeholders.
- Developed and delivered presentations for executive-level clients, guiding strategic decisions that enhanced software quality and operational efficiency.

Business Development / Project Manager

NobleHands H & C | San Antonio, TX | 10/2017–01/2020, 07/2023–Present

- Drove 200% Y.O.Y. revenue growth by identifying customer pain points and delivering tailored service solutions that enhanced operational efficiency.
- Fostered long-term client relationships by providing proactive technical support and ensuring

seamless onboarding and service delivery.

- Streamlined contractor collaboration processes, improving project throughput and customer satisfaction through clear communication and expectation management.

Junior Data Engineer / Sprint Review Lead

Apexon | Remote | 12/2020–03/2022

- Spearheaded sprint demonstrations, acting as the liaison between development and stakeholders, which improved project transparency and client engagement.
- Supported cloud migration efforts while ensuring compliance with regulatory data standards, enhancing the integrity of data-driven solutions.
- Co-founded a mentorship program that improved onboarding efficiency and reduced new-hire churn by over 30%, fostering a collaborative team environment.
