Career Summary

- 4 years of hands-on experience designing, developing, and optimizing Snowflake-based data solutions across industries including banking and professional sports.
 - Expertise in SQL, Python, ETL/ELT pipeline tools and architecture, and data modeling.
 - Proven success collaborating with cross-functional teams, facilitating Agile ceremonies, and engaging with stakeholders for enterprise data initiatives.
-

Core Competencies

Data Engineering:

Snowflake, SQL, dbt, Matillion, Python, ETL/ELT Development, Data Modeling, Performance Tuning, Cloud Integration (AWS, Azure, GCP), Data Governance, Security

Tools & Platforms:

Tableau, Power BI, BigQuery, Databricks, Docker, GitHub, Jira, Flask, Gradio

Soft Skills:

Client Engagement, Problem Solving, Collaboration, Technical Presentations, Mentoring, Stakeholder Management

Professional Experience

Project Lead – Noble Services, Inc., San Antonio, TX

07/2023 – Present

- Designed and implemented scalable data pipelines integrating APIs and large language models (ChatGPT, Gemini) into production-grade systems.
- Built and deployed AI-driven tools using Python, Flask, and Gradio, integrating Snowflake for backend data handling.
- Created documentation and implemented data governance practices for all deliverables.
- Managed multiple client projects from inception through delivery with 100% satisfaction ratings.

Cloud Data Engineer – Data Clymer (now Spaulding Ridge), Remote

07/2022 – 06/2023

- Engineered and optimized Snowflake data pipelines for clients including NFL and MLB to improve real-time analytics.
- Architected data ingestion frameworks that reduced load times from 24 hours to 15 minutes.
- Supported modernization initiatives improving reporting accuracy by 53%.
- Led Agile ceremonies and presented findings to client executives.

Data Engineer – Gathi Analytics (now Apexon), Remote

12/2020 – 03/2022

- Migrated complex banking data from on-prem systems to Snowflake, improving scalability and performance.
- Developed secure, high-performance pipelines to support regulatory compliance.
- Designed dashboards for executive reporting and mentored new engineers via Gathi Garden program.

Earlier Roles – Wilson-Mohr | Regal Plastics

- Exceeded sales targets and leveraged technical acumen to bridge communication between business and engineering teams.

Projects

- www.resumewhip.com: Built and launched an AI-powered resume optimization platform leveraging Snowflake, Python, and LLM APIs.
- **Prompt Engineering Automation**: Developed a Python automation framework improving workflow efficiency by 30%.
- **Product Rebranding**: Drove complete inventory sellout through targeted, data-driven strategy.

Education & Certifications

- **Professional Scrum Master I (PSM I)** – *In Progress*, Scrum.org (2025)
- **Project Management Professional (PMP)** – PMBOK 35 PDU, TIA (2024)
- **A.A.S. in Data Science** – Codeup, San Antonio, TX (2020)
- **B.S. in Biology** – Concordia University, Austin, TX (2001)
